IC3 Digital Literacy Certification

CERTIPORT
A PEARSON VUE BUSINESS

The SkillsUSA association for your state has some important and exciting news for you!

SkillsUSA

Beginning with the 2018 state-level competition for Technical Computer Applications, SkillsUSA will integrate the IC3 GS4 Digital Literacy Certification exam as the assessment component of the competition. The reason for this change is to better prepare students to move on to and be competitive at the national level competition, where the IC3 GS5 Digital Literacy Certification exam has already been integrated.

IC3 Digital Literacy Certification is an industry-recognized, globally-accepted certification that accurately tests a student's digital literacy skills in preparation for college and career success.

One of the best ways to prepare your students to be competitive at your state competition and beyond, is to integrate IC3 Digital Literacy Certification at your SkillsUSA school/chapter.

IC3 DIGITAL LITERACY CERTIFICATION
