Project Information

Skill Performance

An oral communication test will assess contestant verbal presentation skills. The four separate skill performance tests assess skills in massage, basic facial, daytime and nighttime makeup application, (Regional contest) and daytime and fantasy makeup application (State and National contests), at multiple performance stations. Creativity is assessed in the fantasy makeup application, while technique is tested in the performance of massage, basic facial and daytime/nighttime makeup application. An emphasis on safety and sanitation will be used in all segments of the skill performance areas. Observations during each segment and evaluation of the finished product will be considered in the scoring.

Contest Guidelines

1. The contest rules will be reviewed at the scheduled orientation. After the review session, contestants, in their required dress, will take the oral communications and written tests. Contestants will then be escorted to the contest site to receive final instructions. The contestant will turn in his or her résumé and written theme for the fantasy makeup application (State and National) upon check-in at the scheduled orientation.
2. All contestants must keep their working area clean and organized.
3. All contestants must follow sanitation and safety procedures throughout the contest. Floor monitors/judges will assess decontamination procedures and safety practices throughout the contest.
